

# WP3

- Full trial study
- Definitive Implementation of Opt-TBD care pathway at respective study sites.
- Economic analysis of Opt-TBD.

We plan to recruit 15 BMUs (Basic management units of TB) in Khyber Pakhtunkhwa and Punjab to provide TB treatment and diabetes care.

We will focus on newly diagnosed adult TB patients who have attended these facilities within the last four weeks. We will screen 100 such patients at each facility for diabetes.
